JEREENA JOSHY

DATA ANALYST

E-Mail | LinkedIn | Thrissur, Kerala

Professional Summary

Data-driven Data Analyst with experience in data analysis, business intelligence, and dashboard development. Skilled in Power BI, SQL, and Excel for translating complex datasets into actionable business insights. Experienced in requirement gathering, KPI development, process optimization, and data-driven decisionmaking.

Professional Skills

Data Analysis S Visualization: Power BI | Tableau | Advanced Excel | Data Modeling | Dashboard Development | Interactive Reporting | Drill-Down Analysis | Business Intelligence Reporting

Database S Technical Skills: SQL | Python | Pandas | NumPy | Data Extraction | ETL Processes | Data Transformation | Query Optimization | Database Management

Analytics S Statistical Techniques: Trend Analysis | Forecasting | A/B Testing | Hypothesis Testing | Data Mining | Root Cause Analysis

Business Analysis S Intelligence: Requirement Gathering | Business Process Analysis | Gap Analysis | KPI Development | Performance Monitoring

Reporting S Process Optimization: Report Automation | Process Improvement | Workflow Optimization | Performance Metrics | SLA Monitoring | Risk Analysis | Operational Efficiency

Domain Knowledge: Retail S E-commerce Analytics | Sales S Marketing Analytics | FMCG S Supply Chain Analytics | Financial Data Analysis | Healthcare Analytics | HR Analytics

Work History

CAMERINFOLKS August 2025 – April 2026
DATA Analyst (Intern) *Kerala, India*

- Collected, cleaned, and analyzed large datasets using **Microsoft Excel**, **SQL**, and **Python** to improve data accuracy and reporting efficiency.
- Performed **data cleaning, transformation, and validation** to ensure high-quality datasets for analysis.
- Developed interactive dashboards using **Power BI / Tableau** to track KPIs and business performance.
- Wrote optimized SQL queries to extract and manipulate data from relational databases.
- Automated repetitive reporting tasks using **Python scripts**, reducing manual effort by 25–35%.
- Collaborated with cross-functional teams to understand business requirements and translate them into analytical solutions.
- Documented data processes, workflows, and dashboards for future reference and scalability.

Projects

E-commerce Sales Dashboard

- Analyzed e-commerce sales data to identify customer behavior, purchasing patterns, and product performance trends.

- Cleaned and transformed data using Excel and SQL (joins, aggregations, filtering) to ensure accuracy and reliability.
- Built an interactive Power BI dashboard to track KPIs such as revenue, order volume, average order value (AOV), and category-wise performance, including customer segmentation.
- Generated data-driven insights to support business decision-making and optimize sales strategy.

Sales Insights Dashboard

- Analyzed sales data in **Microsoft Excel** to track **revenue, profit, and monthly performance trends**.
- Built **interactive dashboards** using **Pivot Tables, charts, and advanced formulas** (VLOOKUP, IF, SUMIFS).
- Identified **top-performing products, regions, and customer segments** through data segmentation and analysis.
- Generated data-driven insights to support business decision-making and sales strategy improvement.

AI Jobs Analysis Dashboard

- Analyzed global **AI job postings data** to evaluate trends across **countries, experience levels, and work modes**.
- Developed an **interactive dashboard in Power BI** using **KPIs, maps, slicers, and visualizations**.
- Identified **in-demand AI roles, remote job trends, and high-paying positions** through data analysis.
- Delivered **actionable insights** to support understanding of **AI job market trends and hiring patterns**.

Image Caption Generator (Deep Learning)

- Developed an image captioning model using Python with TensorFlow and Keras to generate captions from images.
- Implemented a CNN-LSTM architecture for feature extraction and sequence generation.
- Performed data preprocessing, model training, and evaluation using NLP metrics (e.g., BLEU score).

Education

B.Sc. in AI S ML — August 2022 – May 2025
Sree Saraswathi Thyagaraja college — *Tamilnadu, India*

Certification

- **Machine Learning with Python** – ESICT Academy, IIT Kanpur | Skills: Machine Learning, Python, Data Analysis, Model Building.
- **Data Mining** – NPTEL | Skills: Data Mining, Pattern Recognition, Predictive Analysis.

Technical Skills

- **Data Analysis Tools:** Microsoft Excel (Pivot Tables, Charts, Formulas)

- **Data Visualization Tools :** Power BI, Tableau
- **Database S Querying:** SQL
- **Programming:** Python
- **Core Concepts:** Machine Learning, Data Mining
- **Data Analysis:** Statistics, Machine Learning, Data Mining

Language

English: Read, Write, Speak **Tamil**:
Read, Write, Speak
Malayalam: Read, Write, Speak
